### Course: **Global Mindset and the Global South**

This course explores the concept and application of a global mindset as a key capability for navigating cultural differences and addressing global challenges in management and leadership. With particular attention to the Global South, it examines how norms, beliefs, and behaviors shape organizational strategy and practices. Participants will critically reflect on their own global mindset, assess its role in their teams and organizations, and develop insights on how it can enhance leadership, research, and professional activity in an interconnected world.

 Start Date: March 26, 2026

 End Date: March 27, 2026

 Professor: Prof. Livia Barakat

### Course: **Sustainable Supply Chain Management**

This course provides an in-depth understanding of the role of sustainability in supply chain management, covering conceptual, theoretical, and applied foundations, as well as key organizational theories in the field. It explores major areas of application, emerging themes, and contemporary challenges, while fostering critical reflection on research approaches and opportunities. By engaging in projects and academic papers, students will be encouraged to analyze, apply, and investigate sustainable practices in supply chains, contributing to both academic and practical advancements in the area.

 Dates: April 27, 28, 29 and 30, 2026

 Format: 100% online

 Time: 8:00 a.m. to 10:30 a.m.

 Professor: Prof. Daiane Neutzling

### Course: **Social Entrepreneurship in Latin-America**

The course explores the role of social entrepreneurship in addressing global challenges through financially, socially, and environmentally sustainable initiatives. It focuses on the Latin American context, where institutional limitations and restricted access to resources require adapted strategies. The course combines theoretical concepts and practical case studies to examine how social ventures can generate scalable social impact.

 Start Date: July 20th, 2026

 End Date: July 21th, 2026

 Professor: *to be defined*

 Deadline for applications: May, 15, 2026

# International Course Offering

Available Courses (Taught in English) - 2026

## Course: **Learning from the Amazon: Strategy, Leadership, and Global Applications**

This course offers a critical and reflective perspective of the social, environmental, and economic complexities of the Amazon, highlighting its lessons for leadership and strategy in contexts marked by high uncertainty, diversity, and ecological interdependence. Grounded in theoretical and conceptual frameworks, students are encouraged to connect these perspectives to real-world situations and contemporary challenges. They will compare the insights gained from the Amazon with other global contexts of ecological and social complexity, and explore leadership and strategic approaches for emerging and fragile settings, including the articulation of lessons learned and the formulation of conceptual transfers to other regions of the world.

 Start Date: Sept 14th, 2026
